- Songo Play-Along -

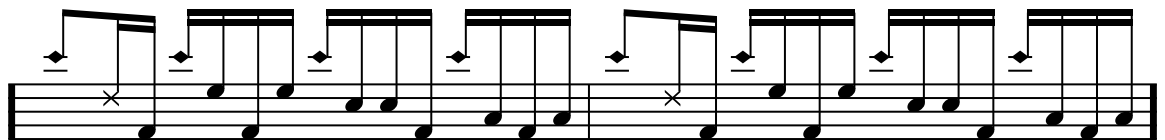

The Songo starts out with a short snare drum intro. It then picks up right into the guitar solo melody.

Intro

This is the main Songo beat, play it throughout most of the song.

Guitar Solo

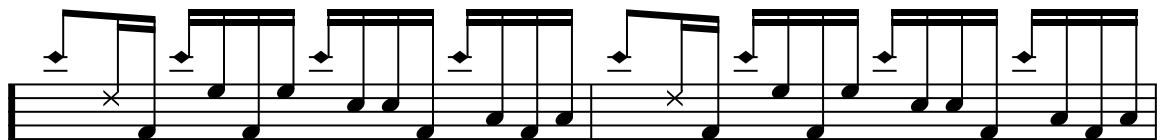

Here is your chance to solo for quite a long time. Have fun, and make sure you do not build your solo up too fast.

Drum Solo
36 Bars

The beat comes straight out of the solo. Play a 4 bar pattern for the outro.

Outro

Remember to hit the shots at the end with the whole band.
